

QUALITY-ENVIRONMENT POLICY STATEMENT

Track Civil Engineering Solutions LTD operates from premises in Rosyth and at client sites for the provision of Engineering Services and the quality services and protection of the environment are regarded as an integral part of the proper management of all the undertakings over which the company has control or influence. **Track Civil Engineering Solutions LTD is dedicated to ensuring:**

- Identification of the environmental aspects of all activities directly and indirectly associated with the activities of Track Civil Engineering Solutions LTD;
- Determination of the significance and minimisation of Track Civil Engineering Solutions LTD environmental impact;
- That Objectives and Targets for Q&E improvement are set;
- Prevention of pollution;
- Waste minimisation, promotion of recycling, and reduction of energy consumption;
- Compliance with legislative, regulatory and other requirements to which we subscribe, relative to Q&E;
- Working towards ISO 9001 and ISO 14001 certification through the continual improvement of our Q&E management system, wanting to put as a goal, the certification by 2023.

In order to meet these aims, Track Civil Engineering Solutions LTD will:

- Keep up to date with best practice in relation to Q&E and comply with all relevant legislation and authoritative guidance;
- Ensure, so far as is reasonably practicable, that those who undertake work on our behalf apply the highest standards of Q&E management;
- Co-operate with the local authority, statutory bodies and public services in the interests of public safety and the safeguarding of the environment;
- Give a high priority to quality and the environment in all our operations;
- Develop, implement and monitor environmental regimes appropriate to the nature and scale of the environmental risks;
- Provide the necessary resources to implement our policies and keep them up to date;
- Consult with, and involve, our staff in matters affecting Q&E management;
- Provide the necessary equipment and training for the tasks to be performed;
- Regularly review the policy, communicate this within the organisation, ensuring understanding and make available the policy to other interested parties;
- Ensure that equipment or plant that has the potential to pollute will be maintained and/or renewed to ensure that it causes as little pollution as possible;
- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.

- Ensure sufficient planning to allow for the minimisation of environmental impact;
- Review / set Q&E objectives and targets for achievement.
- Encouraging employees to be aware of their own environmental responsibilities at work.

Track Civil Engineering Solutions LTD commits to the provision and maintenance, of an effective Q&E management system for reduced environmental impact and provision of goods and service that meet or exceed customer expectations. We require the full and active participation of all our employees in order that the principles outlined in this policy statement may be achieved.
